

High abundance of slimy, messy, yucky pumpkin guts anticipated at the

1st Annual PUMPKIN DROP!!!!

Sponsored by the Physics Department &
the Society of Physics Students

Come watch your favorite Physics Professors drop real pumpkins off the roof of the Science & Engineering Building to demonstrate common physics principles such as constant acceleration of gravity, terminal velocity, and Newton's laws.

Watch ARISTOTLE, Galileo, Sir Isaac Newton, & Albert Einstein explain the theories behind these principles!!!!

Halloween, October 31 @ 1:30PM

on the lawn west of the SE Building and east of the GN Building
